

Disc Dehullers JHD

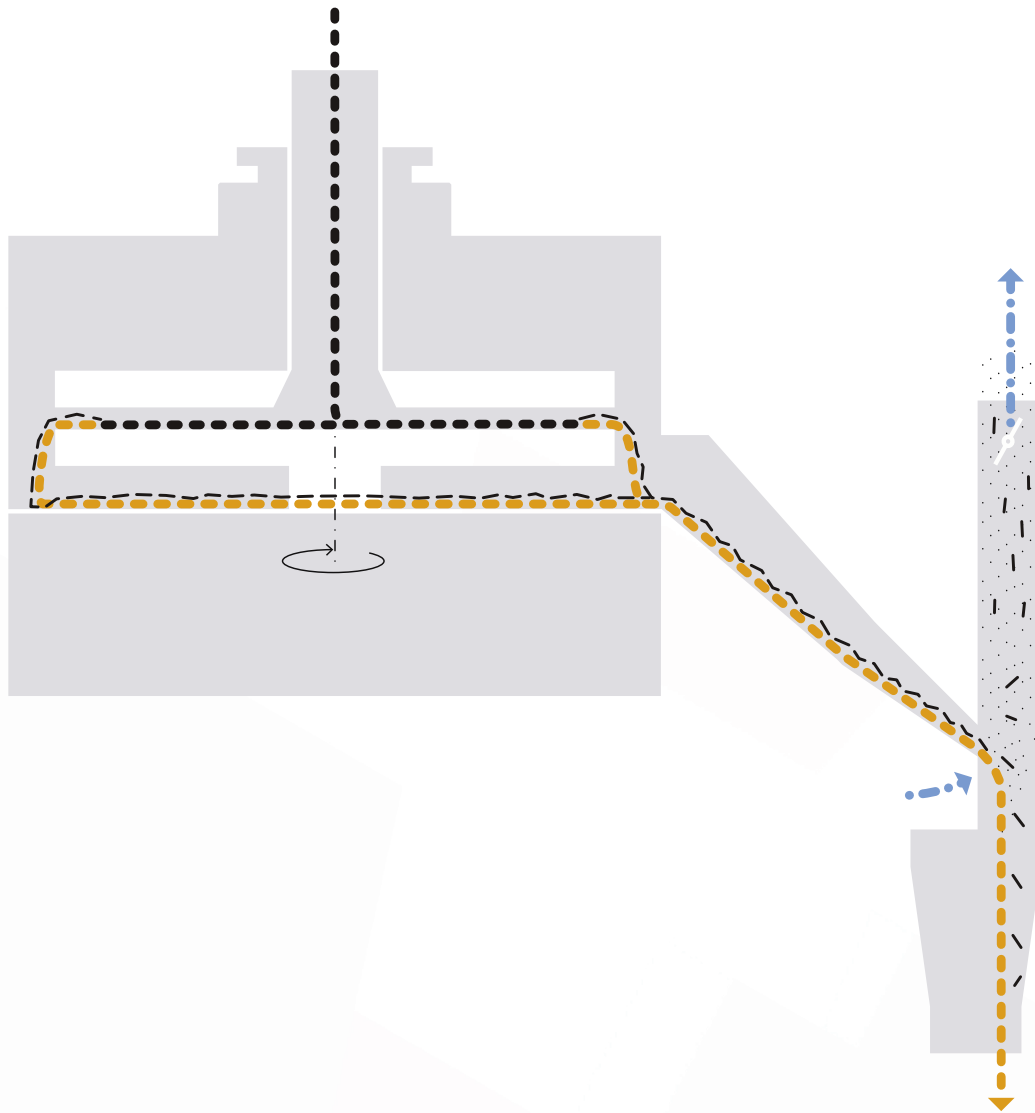

*We separate the wheat
from the chaff*

- › Designed for hulling small seeds like millet and buckwheat
- › Easy setting of milling rift and hulling intensity
- › Sparing effect on grain
- › Low energy consumption

JHD			06
Capacity		kg/h	200-600
Input power		kW	4
Dimensions	Length	mm	1500
	Width	mm	800
	Height	mm	1200
	Rotor diameter	mm	600
Weight		kg	500
